DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art on record, although similar, does not disclose as in claim 1 the particular orientation of the sound channel "wherein sound is coupled from the speaker to a front outlet by means of an opening formed in said PCB at the speaker, a sound channel extending from said opening longitudinally in the terminal between said PCB and said user interface, past said speaker, to a bent portion leading the sound channel around an edge of said user interface at an end portion of the terminal," in combination with the other limitations of the claim.

For example, Neibaur et al. (5,721,787) discloses a communication terminal where the speaker is located behind the user interface, note that if the user interface is considered to end at the dotted line 134 just after the keys then the speaker is not "completely" behind the user interface as viewed from the front side in the sense that it is completely hidden from view by the user interface when viewed from the front, where sound porting holes 128 are formed in a circuit board 108 at the speaker to couple sound into tunneled speaker porting 134 formed within the back surface 122 of the user interface, therefore between the user interface and the printed circuit board, and out through opening 126 and speaker grill 112. Since the speaker is not "completely" behind the user interface, the sound channel does not extend "past" said speaker before bending around an edge of the user interface. Therefore Neibaur and likewise the other references on record do not disclose all the limitations of claim 1 and it would

not have been obvious to one of ordinary skill in the art at the time of the invention to modify the prior art to include all the limitations of claim 1. Claims 2 – 12 depend on claim 1 and therefore are also allowable for the same reasons above.

See also Applicant Arguments/Remarks dated December 14, 2006 pages 8 – 9 in regards to claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
